

# Support Basic Science Cancer Research

## Karting for Cancer

The H Foundation was proud to introduce our newest event in 2021, Karting for Cancer! Karting for cancer is a fast-paced professional grade, high performance racing experience held on the Autobahn Country Club karting course! 15 teams drive go-karts that can reach speeds up to 55mph around a half mile track. Teams compete not only to see who crosses the finish line first, but more importantly they race to see who can raise the most money to find a cure for cancer.

This is a very exciting experience for not only the racer but for spectators too! Family and friends can come out to cheer on their team and show their support for a great cause! Are you in the need for speed? Join us at the track!

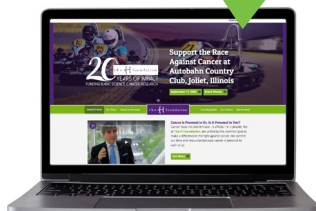

All Proceeds Benefit Basic Science Cancer Research at the Robert H. Lurie Comprehensive Cancer Center of Northwestern University.

### Event Features:

- Hosted at the Autobahn Country Club of Joliet
- A professional grade high-performance track
- Race at speeds up to 55mph
- Experience Pit Stops
- Enjoy Tailgating prior to the event
- Spectator opportunities for friends and family
- Multiple sponsorship opportunities available
